Complete solutions for your **City of Madison** and **Dane County** stormwater maintenance and reporting requirements.

- Inspections**
- Certifications**
- Cleaning**
- Repairs**
- Construction**

Over 38 years of quality construction and engineering.

Inspection, Reporting, Cleaning, and Repair of:

- Rain Gardens
- Inlets and Catchbasins
- Stormceptors
- Rock trenches
- Pervious pavements
- Storm pipe and Culverts

Let us take care of your **compliance** with the **City of Madison** and **Dane County** stormwater maintenance and annual reporting requirements.

Comprehensive Stormwater Maintenance Services

INLET FILTERS

We will maintain your inlet filters per the municipality requirement of inspection 3 times per year (includes any necessary cleaning), cleaning twice per year, and replacing the oil and grease filter boom once per year.

BIO BASINS (RAIN GARDENS)

We can inspect your bio retention basins (infiltration and rain gardens) to insure that they are properly functioning. If they are no longer functioning we can remove and replace the engineered soil mix to restore the filtering and infiltration properties of the facilities.

LIMESTONE FILTERS

With our large equipment fleet and our own limestone quarry, removing and replacing stone trenches, weepers, and filter strips is all in a days work for our professional staff.

STORMCEPTORS

Our vacuum excavator can quickly and thoroughly clean out the sumps of large structures.

PERVIOUS PAVEMENTS

We will flush and vacuum your pervious pavements to open the voids and restore its permeability.
